

Malama Project - Catalyst Fund 12 Close-out Report

Project Information

Project Name: Malama Project - Distributed Hawaii Carbon Credits on Cardano

Project Number: 1200230

IdeaScale URL:

<https://projectcatalyst.io/funds/12/cardano-use-cases-concept/the-malama-project-distributed-hawaii-carbon-credits-on-cardano>

Project Manager: Jeffrey Wise (CEO)

Start Date: September 2024

Completion Date: April 2025

Challenge KPIs & Project Response

- Blockchain Adoption: Conducted workshops to facilitate real-world adoption.
- Democratizing Access: Deployed a user-friendly blockchain platform.
- Transparency: CIP-68 NFTs enabled transparent, on-chain credit tracking.

Project KPIs & Achievements

- Launched Beta: <https://app.malamaproject.org>.
- Community-Driven Updates: Workshops informed significant UX enhancements.
- Robust Documentation: <https://github.com/Malama-Project/milestones>.

Key Achievements

- Successful Workshops: High farmer engagement, practical platform insights.

- IoT Integration: Real-time environmental data integrated directly onto blockchain.
- Educational Platform: Created malamacarbon.com for better farmer education.
- Progress Toward Certification: Significant advancement toward Puro pre-certification.

Lessons Learned

- Funding Volatility: ADA price fluctuations challenged resource allocation.
- Reviewer Expectations: Balanced feedback integration with resource constraints.
- Educational Gaps: Developed focused educational resources due to observed knowledge gaps.

Next Steps

- Cross-Chain Integration: Allow minting on multiple blockchains.
- DID/KYC: Implement robust identity verification systems.
- Expanded IoT Deployment: Scale sensor-based data capture.
- Secure Additional Funding: Raising capital via SAFE round for growth and resilience.

Final Reflections

The Malama Project successfully demonstrated blockchain utility in sustainable agriculture, fostering significant community collaboration. We deeply appreciate Project Catalyst, the Cardano community, and all our partners for their support.
